SUMMARY

Aspiring Data Scientist with a strong interest in Machine Learning and Artificial Intelligence. Passionate about working with data, discovering meaningful insights, and developing solutions to real-world problems.

EDUCATION

Vellore Institute of Technology, Bhopal
B.Tech in Computer Science, AI & ML

CGPA - 8.81
Sep 2023 – May 2027

PROJECTS

Retail Sales Intelligence System

Python, Pandas, NumPy, Streamlit, Power BI

Business Intelligence & Data Analytics Project

- Created a desktop-based NLP application with secure login functionality using Tkinter and JSON-based storage.
- Combined 3 NLP modules—Sentiment Analysis, Named Entity Recognition (NER), and Emotion Detection—into a unified text analysis interface.
- Applied NLTK VADER and Transformer-based models to analyze user input and generate predictions in real time.

NLP Application

Python, Tkinter, NLTK, Transformers, JSON

Natural Language Processing GUI Application

- Developed a desktop-based NLP application with secure user authentication using Tkinter and JSON-based data storage.
- Integrated 3 NLP modules—Sentiment Analysis, Named Entity Recognition (NER), and Emotion Detection—into a single interface, enabling end-to-end text analysis.
- Utilized NLTK VADER and Transformer-based models to process user input and generate sentiment, entity, and emotion predictions in real time.
